1. LOGGING IN AND OUT

1.1 LOGGING IN

1. Open your internet browser and enter *https://tudelft-onstage.xebic.com* into the address bar.
2. Enter your TUDelft username and password into the log-in screen:

The screenshot shows the TUDelft login interface. At the top is the TUDelft logo. Below it, a message reads: "Please log in to access login-protected services." There are two input fields: "NetID:" with the placeholder text "your netid" and "Password:" with the placeholder text "your password". A blue "Log in" button is positioned to the right of the password field.

3. When logging in for the first time, you will see the notification *'Pop-ups are blocked by your browser. These are needed in order for the website to function correctly.'* Follow the instructions that appear on the internet page.

1.2 LOGGING OUT

Click on the following icon (in the top-right hand corner of the screen) and close the browser.

2. NAVIGATING

2.1 EXPLANATION OF MENU BAR

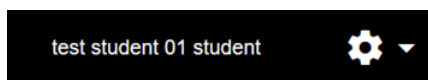

The menu bar is shown at the top of your screen. It consists of the following components:

Menu button: opens the menu with the underlying options ¹

Home button: this takes you back to the start page

Name of current user: by clicking on your own name you can amend your profile details and screen language

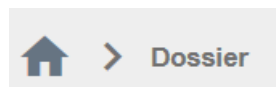

Help button: provides help with the section you are working on

Signing off button: use this to log out of OnStage

¹ Please note: Under the menu button, you will find a tab 'Vacancy database'. The TU Delft does not use this database.

Under the black bar in your screen is a breadcrumb trail, which remembers whereabouts in OnStage you are:

You can also use the [Forward] and [Back] button of your browser.

2.2 IMPLEMENTING ROLES

S	Student
CO	Coordinator (Internship Office)
AS1	First Assessor (TU Supervisor) (YOU)
CS	Company Supervisor

3. YOUR DASHBOARD

Under the tab *'My students'*, you can find an overview of the students that you supervise.

If you have any ongoing activities, this will be shown in the column *'Activity'* by a red circle with a number in it.

On the left side, you can find search and filtering options. By clicking on filters or swiping to *'Yes'*, you can find files with a specific role or status. Especially, the *'To-do list'* tool or *'Dossier communication messages'* is very convenient when looking for files where action needs to be taken.

▶ Coaching groups:

▶ Dossier status:

▶ Assignment kind:

When checking the box of a student's file, a *'Send mailshot'* option will appear on the bottom of the page.

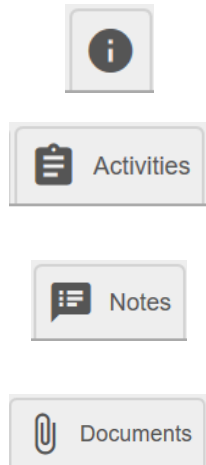

☐
☒ Send mailshot

Under the tab *'My current dossier tasks'* you can find an overview of all your to-do's.

4. STUDENT'S FILE

Under the heading 'My students', click on the file of your choice in order to open it. There are four tabs in the student's file:

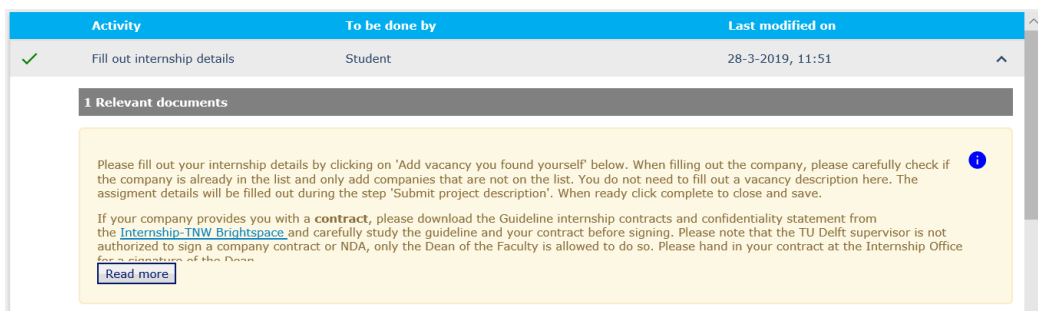

Information Tab: Gives detailed information about the internship organisation and designated supervisors. You can also find all the messages that have been sent to you using OnStage.

Activities Tab: Shows the Step-by-Step guide with the actions that need to be taken and the status per step.

Notes Tab: Gives the ability to you, your student and the Internship Office to post comments. You can make these notes visible for others. Note, others will not get a notification when posting new notes.

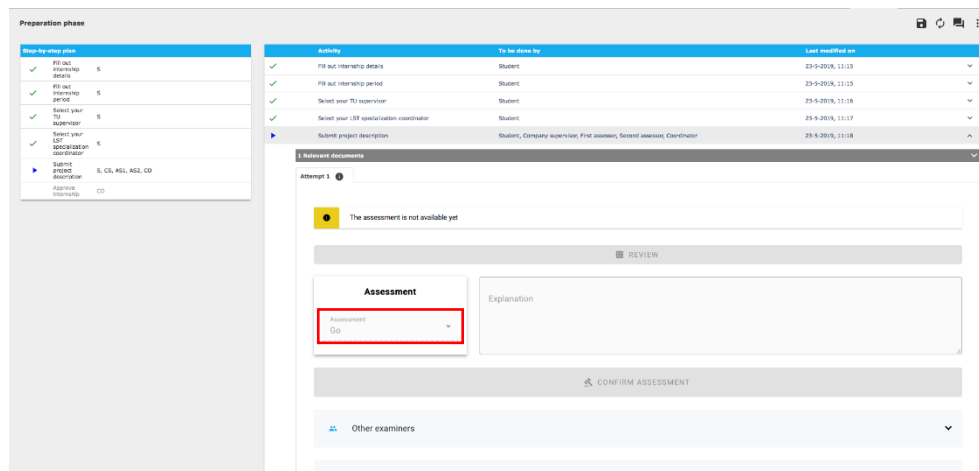

Documents Tab: Shows the most recent version of each document in the student's file.

The 'Activities' tab is opened by default. You can see here the steps you or the student needs to take. For each step, a light-yellow field with instructions is shown so you can see exactly what to do. Don't forget to click on 'COMPLETE' once you have uploaded your documents. You can also find the notifications sent and the documents that have been handed in. The steps may vary from one programme to the next. The image shown below is just an example.

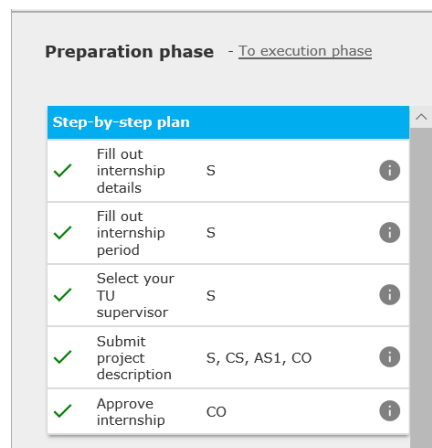

The Internship Dossier consists of two phases: the Preparation phase and the Execution phase. Before the internship starts, you can see the steps in the Preparation phase. When the preparation phase is completed, the Execution phase will appear.

Please note: The step 'Submit project description' is the only one where you, as a supervisor, need to take action in the preparation phase. Only after the student has uploaded the Project Description, will you be able to approve the internship. You can do this by clicking on the button 'GO'. Once you have approved the internship the button will turn grey as seen in the screenshot below.

Every phase has some mandatory activities and some optional activities. You can add these optional activities for the student by clicking on them. It is also possible to complete these steps multiple times. The Step-by-step plan needs to be completed in the order shown in OnStage.

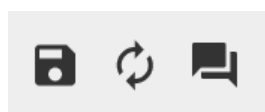

Please note: The Preparation phase needs to be completed before the student can start the Execution phase.

Once a step has been completed, it is given a green check. Letters are shown after the step that indicate who should take action during that step (see 2.2 Implementing Roles).

Approximately two weeks before the end of the internship, you will receive an email from OnStage with a request to upload the assessment form. The internship cannot be completed without this form.

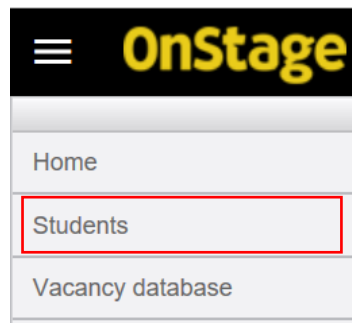

In the top-right corner under the 'Activities' tab, you can see the following icons:

The first is used to save the page, the second to refresh it and the third is a chat function with which you can communicate quickly with your supervisor, coordinator, or the Internship Office.

5. THE STUDENTS PAGE

You can find the students page by clicking on the menu in the top-left corner.

At the top of the page, you can find a search tool that enables you to find a specific group of students (by Domain, Course, Group etc.).

Domain:	Applied Sciences	Keyword:			Search
Course:	ESA	Starting year:			
Group:					
☐ Advanced search					

By clicking on 'Advanced search', you can chose to include inactive students as well. Click on 'Search' to see the students.

When you select a student, information about the student will appear on the right side. Under the heading 'Dossiers for school record', you will find the dossiers of the students you supervise. Click on a dossier to open it. You will be redirected to the student's file.
